## **How is USDA Research Working for Minnesota?**

In FY 2012, Minnesota received:

- \$12 million from the Agriculture Research Service (ARS)
- \$6.7 million from the Agriculture and Food Research Initiative (AFRI)

## **Agriculture Research Investments in Minnesota**

- Minnesota has 4 ARS research units:
  - Soil Management Research
  - Cereal Disease Research
  - o Plant Science Research
  - Water Management Research

A turkey's breeding pattern is determined by the amount of daylight it is exposed to. Researchers at the University of Minnesota are studying the light-sensing neurons in turkeys as a way to increase breeding productivity.

AFRI funding is being used to study the chemistry of biofuel crops in order to develop new "bioplastics" made from the byproducts of biofuel production.

## Agriculture Value in Minnesota

- Minnesota has 79,400 farms that account for \$21 billion in total commodities, \$8.2 billion in agricultural exports and more than 162,000 jobs
- U.S. public investments in agriculture research and development produce benefit-cost ratios of 20:1 and higher
