## CNSF Statement on the Passage of the American Innovation and Competitiveness Act

As the Coalition for National Science Funding - an alliance of more than 130 organizations dedicated to supporting the National Science Foundation (NSF) - we applaud the 114th Congress for passing the bipartisan American Innovation and Competitiveness Act (S. 3084). The coalition took a keen interest in this bill and appreciates the hard work and compromise that went into achieving the final version, which contains several positive provisions for the science and research university community. We look forward to continuing to work with Congress to champion the critical work of NSF and support all disciplines of research.

*The Coalition for National Science Funding (CNSF) is an alliance of over 130 professional organizations, universities, and businesses advocating support for the National Science Foundation.*
